## Another Fire.

Another disastrous fire visited Albert Pichot about noon Friday of last week and this time all of his hay and fodder as well as a large barn and most of its contents were destroyed.

The origin of the fire is somewhat shrouded in mystery unless it be that in trying to put out the fire caused from the lightning some ten days before a spark was left in the wet hay which smoldering for all that time at length burst forth in a destructive flame. When first discovered by Mr. Pichot one of his large stacks of hay was in a blaze and the fire spread so rapidly and the heat was so intense that efforts to save anything were of little avail. Neighbors responded from all sides and a detachment of the Hondo Volunteer Fire Company with its engine and hose went out to his assistance and helped in saving what they could.

Besides the loss of the barn and about a hundred loads of hay, the seed from eighteen bales of cotton, the fodder from forty acres of corn, about a hundred bushels of new corn, and a quantity of old corn, all of his cane seed, a lot of harness, some farming implements, etc. were destroyed. Only some of the charred corn and cotton seed was saved. The loss will total about \$2000.00, and there were no insurance.

This is a very heavy loss as it wipes out Mr. Pichot's supply of forage as well as destroying his other provender, barn, etc., and he has the sympathy of all who know him.

Mr. Pichot requests us to extend his thanks to his neighbors, Mexicans as well as whites, and the Hondo Volunteer Fire Company for the help and aid they gave him in trying to save his property.

## Paint Put-On

Think of paint put-on and not by the gallon.

A gallon of paint in the can is of no account to anybody. Put it on. Now reckon its cost and value.

The secret is: one paint goes twice as far as another. A good one goes twice as far as a bad one.

You have a job, say an average job. It'll take 10 gallons Devco and 12 or 15 or 18 or 20 of middling poor very-poor and trash. You know painter's wages in your town. Put the price of a gallon of paint and the painter's day-wage together. You can, we can't.

Devco costs less than any inferior paint; there are hundreds of them.

One paint is as good as another, so long as it lasts good; one lasts months and another years; and the one that goes furthest lasts longest.

DEVOE HOLLOWAY BROS. sell it.

## YES, IT IS HERE AT LAST!

### Keen Local Interest in Composite Masterpiece of Forty-Eight Engineers

The first composite automobile built by the automobile industry has aroused keen local interest. Scores of motorists and prospective automobile owners have called on C. W. Roberts, the Hudson dealer, to see the new Hudson "37" which just recently arrived. Already a number of orders have been placed for the car and enthusiasm over this remarkable automobile is at a high pitch.

The car is the creation of forty-eight leading engineers, who, working together under the direction of Howard E. Coffin—America's foremost motor car designer—built the composite masterpiece, the first car built on that idea. These engineers previously had a hand in building over 200,000 automobiles of 97 well known makes, and all this experience is now concentrated in a single car.

Some of the details of the test trips which were given the car by racing drivers were told today by the local representative. Approximately a year ago the car was driven at fast speed from Detroit to the Allegheny mountains, which was its first testing ground. For weeks a racing driver operated the car acting under instructions to "break her to pieces if you can," and gave the automobile grueling tests under every conceivable condition in the mountains. The "37" went over some of the worst roads in America. Three such tests were made. On one of them, running to Detroit in the dead of winter, the "37" was driven through yard-deep snow at eight to twelve degrees below zero, the effort being to cripple the car and forestall future troubles, should there be any.

Later the car was tested through the sands of Michigan, the gumbo of Missouri, the mud of Illinois, the clay of southern Canada and every road condition which exists in the United States. The driving was done at fifty to sixty miles an hour. Early this spring the car underwent an extraordinary trial for stamina, a one thousand mile mud test over fearful Michigan roads, which at that time of the year no other vehicles dared tackle. The conditions can be imagined when it is stated that the "37" ploughed along through the mud shooting mud and water clear over the fences on both sides of the roads which it traversed. The road which is acknowledged to be the worst and rockiest in the United States is the sixty-mile stretch between Detroit, Mich., and Toledo, Ohio. Over this the "37" was hurtled at mile-a-minute speeds in the belief that if any test would develop trouble, this would. The racing driver not only traversed this road once but a dozen times in the effort to follow his instructions to "break her to pieces if you can."

The total 20,000 mile test, the equivalent of 40,000 miles in the hands of the average owner, or four years usage, utterly failed to feaze the new Hudson "37". Not a single change from the basic design conceived by the forty-eight engineers working together was necessary. For these reasons and because it is a new idea in motor car designing, the new Hudson "37" is creating a tremendous amount of attention locally.

Mr. Roberts sold this car the first time it was on exhibit in Hondo against his wish to E. R. Leinweber, Mr. Roberts realizing it would be some time before he could get another one owing to the great demand for Hudson cars.

## More About the Dam Site Litigation.

The Lytle Herald says:

The Hondo Anvil Herald in his issue of last week copies a Lytle Herald editorial pertaining to the litigation between the Medina Valley Irrigation Co. and the men whose lands will be submerged by the waters of the reservoir above the dam. The Lytle Herald not waiting for trial of the case, handed down the decision that it would have been better for the land owners to have accepted the good--

A mooted question this, which the courts must yet decide!

—price offered them by the Company, and thus not have tried to interfere—

Another gratuitous presumption. The courts will probably determine whether it is "interference" or maintenance of property rights.

—with people who are turning loose barrels of money here and developing some of our country, than to have brought the suits. The Anvil Herald takes issue with us in a very respectful way, declaring that these men have a right to fix any price on their holdings they wish to. He says because these men are poor and the Company is rich, is no reason some one else should try to fix a price on their property. The Anvil Herald MAY BE RIGHT WHEN HE SAYS THE OWNER OF A TRACT OF LAND HAS A RIGHT TO FIX A PRICE.

The Lytle Herald should take the lesson home to itself and admit that the Anvil Herald is right in such contention. If it did that, however, its contentions would have to cease for want of tenable ground. Does it not occur to the Lytle Herald that in denying the land holders what "may be" their rights it "may be" doing them a wrong? Does it want to occupy such a position? The law presumes the worst of criminals innocent until proven guilty. Would the Lytle Herald deny these men whom we know to be good and worthy citizens, what is the right before the law of the meanest criminal? This is exactly what it does when it presumes, ipse dixit, that they have demanded more than their lands are worth before the courts have had an opportunity to adjudicate this point.

And in the very next sentence the Lytle Herald plunges into another presumption of wrong on the part of the land holders without offering a valid reason for such presumption.

Hear it:

—Nevertheless if they were offered what their lands were worth,—

That they were not is the contention that the courts must decide.

—and then refused to accept, they are very much in the wrong.—  
Wrong in what way, pray? Is it because that—

—While they refuse to sell because they think some one is trying to take away from them their right to price their lands, the news may spread beyond the state and stop the flow of that foreign capital South Texas is so much in need of.—

Calm your troubled soul on that score, brother. Capital will always find the opportunities as they develop. Depend upon that.

Our contemporary says further:

—Quite a difference in the treatment accorded the Company by these land owners and the land owners of Lytle. Although a few of our people held out for a price which the Company considered too high, yet others offered them property below the market price, and one of our citizens offered to make them a present of one of the best brick business houses in town, if they would buy other property here and develop it.—

And then the Herald unwittingly gives the secret away, as follows:

—Yes, you say, but Lytle being right in the midst of the project would have more to gain by such treatment of the M. V. I. Co. than would the farmers in the reservoir. How about this?—

It's a fact, brother; and one your keen business man—not philanthropist—was quick to see. That is how about it!

—These land owners have had near them for many months an army of workers, being paid thousands, perhaps millions of dollars. We hardly see how they could live this near the dam building operations and not get some of this cash.—

Certainly, all they justly earned, all they rendered value received for.

—If they have not gained anything from the dam doings near them, whose fault is it?—

Search us! But it may have been the fault of the cards!

—We concur in the previous decision declaring the land owners in the wrong when they would interfere with the development work of the M. V. I. Company.—

And here we have the example of a newspaper man, where fundamental matters of personal and property rights not to mention thousands of dollars are involved, rushing in with a decision where learned judges of the land are treading with circumspection!

We hesitate to have a joust with one quite so reckless as that. Yet, it seems that the Herald man is not content with one but wants to engage us in two. Either that or, like the gods when they would destroy one, he would make us mad. Otherwise we do not understand the motive of his concluding sentence.

—The Hondo Anvil Herald is a mighty good paper, and its Editor is most always right except when he tackles the prohibition question.

For the present let's leave the question of the right or wrong of this writer's position on prohibition with his own conscience. It is not a present issue. Let's wait until we can all get right on the question as to the true value of the lands in controversy, until the land holders have received what they think is a fair compensation for their property and are satisfied, until the irrigation company can go ahead with its great work of development safe in its property and secure in the confidence of the people among whom its enterprise is located, and until harmony, peace and co-operation reign where contentions and criminations now hold sway.

## COL. B. F. YOAKUM

Col. B. F. Yoakum has built more miles of railroad in Texas than any other living man during the past ten years.

Mr. Yoakum was born in Limestone County, Texas. Like nearly all big railroadmen he mastered his profession from the bottom up. He began his railroad experience as a laborer on a construction gang of the International & Great Northern between Jacksonville and Palestine and reached the top rung in railroad management in 1905 when he was elected chairman of the Executive Committee of the Rock Island and Frisco lines and directed the affairs of 17,000 miles of railroad—the greatest aggregate mileage under any single control in the world.

It was Mr. Yoakum's early ambition to span the prairies of Texas with railroads and in the beginning of his career, he mapped out a comprehensive system of 6,000 miles of railroad needed in Texas, which he secretly determined to build, and he has constructed over 1,200 miles, but at the close of the 32nd Legislature announced that he had grown weary of the task and would soon retire from construction work. Legislation inimical to railroad investments and public sentiment hostile to the railroad industry are said to be the reasons assigned for his retirement from the field.

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## More Than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. ## Be Happy!

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

## TAKE The CARDUI Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth, as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it, today."

When you feel Lax, Stretchy, Half Sick, Blue and Out of Sorts, look to the Liver; it is Torpid.

## HERBINE

Is the Remedy You Need.

It is an invigorating tonic for a torpid liver. The first dose brings improvement, a few days use puts the liver in fine vigorous condition. Herbine also extends its restorative influence to the stomach and bowels. It helps digestion and food assimilation, purifies the bowels and brings back the habit of regular daily bowel movements. When the stomach, liver and bowels are active, bilious impurities no longer obstruct functional processes, the result of which is renewed energy, mental activity and cheerful spirits.

Price 50c per Bottle. James F. Ballard, Prop., St. Louis, Mo. Use Stephens Eye Salve for Sore Eyes. It Cures.

## Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health. The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross. Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indecate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce, by letter free. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce's GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers in Plain English hosts of delicate questions which every woman, single or married, ought to know about. Sent free, in plain wrapper to any address on receipt of 21 one-cent stamps to cover mailing only, or in cloth binding for 31 stamps.

### Anvil Sparks.

This Department is in charge of our Authorized Agent for Castroville, ED H. HUEHNER, Editor who is authorized to collect and receipt for money due this paper and to whom items intended for this page should be submitted.—Editor.

Judge Peter Hoog was a Lacoste business visitor last Monday.

Mrs. Aug. Holzhaus, and niece Mrs. Chas. V. Brown and little son left Monday on a visit to relatives and friends at Hondo.

Mr. Ed. Tschirhart Sr. returned the first of the week from an extended visit to kinfolks at Hondo.

Ed. Siedemann, representing the Lone Star Brewery of San Antonio, was in our midst on business Tuesday.

Sheriff Joe F. Bader of Hondo, was here on business Wednesday.

Miss Hortense Sauer of Brackettville, paid a short visit to friends in town Thursday. The young lady was on her way to Anhalt, Comal Co., where she will take charge of school. We heartily join her many friends in wishing Miss Hortense all possible success in her new venture.

Messrs. Peter Groff and J. J. Bendele left Thursday for Nueces, to gather Pecans.

Forty Hours Devotions were observed at St. Louis Catholic Church beginning Tuesday and closing Thursday evening.

### Saved By His Wife.

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Brainerd, Vt., is of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends all thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quinsy, tonsillitis, hemorrhages. A trial will convince you. 50cts. and \$1.00. Guaranteed by W. H. Windrow.

Discretion may be the better part of valor, but it is also the greater part of cowardice.

### Fortunes In Faces.

There's often much truth in the saying "her face is her fortune," but it's never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them. 25 cents at W. H. Windrow's.

Two can live almost as expensively as one.

### They Make You Feel Good.

The pleasant purgative effect produced by Chamberlain's stomach and Liver Tablets and the healthy condition of body and mind which they create make one feel joyful. For sale by W. H. Windrow.

A woman is generally older than she thinks she looks.

Joins that ache, muscles that are drawn or contracted should be treated with BALLARD'S SNOW LINIMENT. It penetrates to the spot where it is needed and relieves suffering. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

Mrs. Alfred Tondre and little son, Milton, after an extended stay with homefolks in our midst, returned to their home at San Antonio Thursday evening.

Henry Tschirhart made a business trip to the big Dam Thursday.

Leopold Haby was down from the mountains Friday. Mr. Haby reports having no rain up to date.

A dance was given at Wernette's Opera House on Friday night by Mr. Roy Brooks, the occasion being that young gentleman's twenty fourth anniversary. The same was very much enjoyed.

We are indeed sorry to say that Mrs. Louis Rihn of Biry is on the sick list. She was brought to town Saturday for medical treatment.

A large number from here attended the Grand Bazaar at Lacoste Sunday. The Castroville Band furnished the music for the occasion.

Mr. and Mrs. Ed. Hans, Mrs. Louis Scherrer and daughter, Florence, and Mrs. J. A. Robinson left this morning for San Antonio, to take in the Barnum Bailey Show.

Castroville, Oct 7, 1912.

### Mussmann-Cox.

Friday evening, Sept. 27th. Mr. Fritz Mussmann Jr. and Miss Lillie Cox were married at the home of the bride's parents, about two miles from Brackett, Judge Harry Longcor officiating. Early in the evening guests from all over the country began to arrive about 300 were present when the happy couple were united. After the ceremony dancing began and lasted until four o'clock, all present enjoyed the occasion very much. Refreshments were served and also thoroughly enjoyed.

The bride is the daughter of Mr. and Mrs. Nathan Cox one of the pioneer families of this section and among our most highly respected citizens. Fritz Mussmann Jr. came to Kinney County from Medina about eight years ago and engaged in farming and stock growing. During his residence among us he has made a host of friends. He is an honest, upright and respected young man and well liked by everybody.

Mr. and Mrs. Mussmann will make their home on Cow Creek where Mr. Mussmann has land leased. The best wishes and sincere congratulations go with the young couple. May they be prosperous, and enjoy a long life of happiness.—Brackett News.

### No Calomel Necessary

The injurious effect and unpleasantness of taking calomel is done away with by Simon's Liver Purifier, the mildest known liver medicine, yet the most thorough in action. Put up in yellow tin boxes only. Price 25c. Tried once used always.

## Hays County Fair Closes With Record Attendance.

Yesterday marked the biggest crowd ever seen at any public demonstration ever had at San Marcos. The chief attractions being the races and the big school meet at the Hays County Fair. Elsewhere the result of the races is recorded, and following is the outcome of the school meet:

- Coronal wins track meet.  
Coronal 27; and San Marcos High School, 23; and Baptist Academy, 22.  
The feature of the meet was the way in which Shinn, of Coronal, finished the relay. Being forty yards behind Halker for the Academy man, he won over him by twenty yards, thus winning the meet for his team. Ellis, for Coronal, was the best individual athlete, winning ten points. The way they finished:  
100 yard dash. Ellis, Coronal; Shinn, Coronal; Davis, Academy Time 10 1/4.  
Broad jump. Ellis, Coronal; Davis, Academy; McBee, High School; 17 feet 3/4 inches.  
Half mile. Fitzgerald, High School; Bales, High School; Rogers, Coronal; Time 2:31.  
High jump. Walker, Academy; 5 feet 4 inches.  
Pole Vault. Wells, Academy; Price, High school; Pegues, Academy, 7 feet 6 inches.  
Hammer. McBee, high school; Wilson, high school; Pegues, Academy. 95 feet 5/8 inches.  
Relay. Coronal first, High School third; Academy second. Ellis, Williams, Rogers and Shinn.  
The Rogers mentioned above is Joe Rogers, son of Mr. and Mrs. C. C. Rogers of this place and a product of Hondo's High School. The Anvil Herald is pleased to see him taking a front place in the athletics of Coronal.

### Chronic Dyspepsia.

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia: I have been a chronic dyspeptic for years, and of all the medicine I have taken, Chamberlain's Stomach and Liver Tablets have done me more good than anything else," says W. G. Mattison, No. 7 Sherman St., Hornellsville, N. Y. Sold by W. H. Windrow.

The Anvil Herald and the Confederate Veteran will be sent for \$1.75 per annum. If you have not seen The Veteran, write to Nashville, Tenn., for a sample copy, then subscribe through this office.

## Pe-ru-na and Ka-tar-no

S. B. Hartman, M.D.

I have received a letter from a young lady, who asks me: "Is the old Pe-ru-na (Ka-tar-no) better than the revised Pe-ru-na?" Either medicine has its place. One is adapted for one condition, another for another. Ka-tar-no is a better remedy for some conditions than the revised Pe-ru-na. On the other hand, the revised Pe-ru-na is a better remedy for some conditions than Ka-tar-no. They are both intended as catarrh remedies. They have both done a great work in relieving catarrh, chronic and acute. Many hundreds of cases of chronic catarrh have recovered while taking Ka-tar-no and the same is true of the revised Pe-ru-na during the last six years since its revision.

There is a difference, however, in the two remedies. Whenever catarrh is associated with constipation then the revised Pe-ru-na is the best. Indeed, this is exactly why the revision was made, to meet such cases. But where no laxative is needed, where the bowels are regular or inclined to be loose, then the old Pe-ru-na (Ka-tar-no) is the better remedy.

The revised Pe-ru-na is for sale at all drug stores. Those wishing to obtain Ka-tar-no, address The Ka-tar-no Co., Columbus, Ohio.

You will confer a double favor by telling our advertisers that you saw their advertisement in this paper.

ONE of the best trade getters for any town is the reputation for being a good market for farm produce. It is the farmers' patronage upon which the town in a farming community must depend for its prosperity, and his market for his produce should be carefully guarded by his local merchant.

ANY person may now go to college by staying at home. This is made possible through the fact that the University of Texas offers many of its regular courses by correspondence. An ambitious teacher who wishes to raise the grade of his certificate or obtain a college degree has now the opportunity; the artisan, the progressive club woman, the lonely ranchman's wife, the clerk, the farmer, the man and women of any trade or profession, may now go far to satisfy his desire for a college education without actually spending the time and means necessary to do resident college work. Nearly 2000 students have registered for correspondence courses since this work has started in the University of Texas, and not a day passes but that new students enroll.—University Bulletin.

**Timely Warning**

**To Calomel Users**

Calomel is a Form of Mercury, and if It Stays in the Human System, Its Effect is Terrible. Ask Your Doctor.

Any physician will tell you that mercury, if it remains in the body, will soften and rot the bones, a disease doctors call necrosis of the bones. Calomel is a form of mercury, and to keep clear of danger it's a safe plan to take no calomel at all, especially as there is a better remedy.

Both children and grown people will find a perfect substitute for calomel in Dodson's Liver Tonic, a pleasant, vegetable tonic that induces the liver to act and which never has any bad after-effects. In fact Dodson's Liver Tonic will do everything that calomel does without any of the dangers of calomel. A large bottle costs only fifty cents, and W. H. Windrow's drug store will refund your money if you are not satisfied.

**Medina Lodge Instituted.**

Medina Lodge, Independent Order of Odd Fellows, was instituted at Hondo a week ago last night by Deputy Grand Master Marcus W. Davis, assisted by District Deputy Grand Master George E. Knauff and Past Grands George W. Johnson, M. D., and Joseph Murray. The party went to Hondo in an automobile and arrived home early Sunday morning. There was also a degree team present from Sabinal, which, assisted by the instituting officers from this city, initiated a class of eighteen candidates and conferred the three degrees upon them in full form. The ceremonies were not concluded until after 1 o'clock, but the newly-made Odd Fellows showed their appreciation of the honors conferred upon them by escorting their guests to a banquet of delicious barbecued meats of several kinds, which were served with all the "fixings" at that early hour in the morning. The San Antonio party is still talking about that delicious feast, which is ample proof of how highly they appreciate it.—Sunday's Express.

# A Pretty Waitress

"Sanford, if you care nothing for cards, don't want to smoke, and take fifteen minutes to brush your hair, you must be in love," said Eugene, taking a long puff at his cigar.

"You've diagnosed my case exactly, old boy."

"Who is she? The daughter of some millionaire, I presume. If the girl has money it will come in handy and will only make you love her the more, not less."

"Is a waitress usually hampered with a superabundance of wealth? All the gold this girl possesses is in the color of her hair."

"A waitress! Are you stark, staring mad? Do you contemplate introducing a waitress as a future member of your aristocratic family? You didn't have to wait so long to get married for that. Where did you meet her?" asked Norton all in one breath.

"I haven't met her, but no young lady of my acquaintance has had the power to entrance me the way that little girl with her big luminous eyes, her perfect little figure, and her lily white hands has. The others it was easy to forget as soon as they were out of sight, but—with this one it's different," he sighed.

"Where does she work?"

"Morton gave a stag dinner last Thursday and she helped serve the guests. But I saw her once before, on the train when she came to the city. Though she was dressed simply, I never dreamt for a second that she worked for her living. Tried to get flirtatious with her, but she's not that kind. Imagine my stupendous amazement when she entered the dining room carrying a big soup tureen."

"Maybe another glimpse of your waitress will cure you of this mad infatuation. Perhaps she talks with an Irish accent. I'm going up to the Mortons tonight. Want to come along?"

"Surely. As soon as I arrive I'll request a glass of water. Perhaps she'll bring it in."

That evening when Sanford and Eugene entered the drawing room of Morton's apartment, Mrs. Morton greeted them cordially, saying, "I want you to meet my sister, Geraldine."

"Your sister," stammered Sanford as he looked admiringly at the girl in a shimmering peach-colored satin dress.

"Probably you recognize our waitress of the other night," explained the hostess. "Our maid left suddenly and as none of the guests knew Geraldine, she thought it would be a good joke to act as her substitute."

"But it wasn't as much sport as I expected," laughed the girl. "I split the soup over my dress and burnt my hand, gave the host the largest instead of the smallest portion, when I had been instructed differently, and shattered the best platter into a thousand pieces. But," she added, "one gentleman tipped me generously, and I'm always going to keep that money as a souvenir."

"Do you remember ever seeing me before," asked Sanford. "I was seated in back of you on the train and offered to carry your suitcase."

"That was one of the reasons I begged to help serve the dinner," answered Geraldine, candidly, "for I overheard you remark, 'Beastly bore, must go to Morton's dinner Thursday night.'"

Sanford made an attempt to apologize for his unintentional offense, though all the time he was thanking his stars at being able to converse with the girl he adored.

"Did I exaggerate any of her charms?" he remarked to his friend as they way home, after they had spent a delightful evening. "I'm going to try and win that girl. Not only is she beautiful, well educated, and sings like a bird, but she comes from one of the first families in the south. Did you ever know one girl to possess so many good qualities?"

"And besides all," said Norton cynically, "she's the daughter of a millionaire and not a poor waitress."

"That wouldn't have made a particle of difference if I loved the girl," murmured Sanford.

"I wonder if it wouldn't have," answered Eugene.

## A Little Misleading.

"Conservatism," said Rev. Allan MacRossie of the New York Methodist Episcopal conference, "is to be encouraged. Radical methods in the pulpit, employed to augment congregations, seldom succeeded in the long run."

"I have in mind a pastor who announced that on the following Sunday he would sermonize on 'A Family Scandal.' The unusual subject had the effect of filling the church to its capacity. But the people were disappointed, for the minister dilated at some length on 'Adam, Eve, the Serpent and the Garden of Eden.'"

"No, I would not say that the preacher was really of misrepresentation, but I do think he was slightly misleading."

## No Ready Made Supply.

"A Paris playwright must have a hard time of it," said the author.

"Why?" asked the manager.

"He's handicapped. He can't get all his original ideas by adopting them from the French."—Washington Star.

## More Economical Both in Use and Cost CALUMET BAKING POWDER

—And it does better work. Simply follow your customary method of preparation—add a little less of Calumet than when using ordinary baking powder. Then watch the result. Light, fluffy, and evenly raised—the baking comes from the oven more tempting, tastier, more wholesome.

Calumet insures the baking of an expert. Ask your grocer to-day.

## RECEIVED HIGHEST AWARDS

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

## MY FATHER Had Eczema 10 Years OVELMO CURED HIM

### Test Course Given Free

My father was a sufferer for years from Chronic Eczema. He tried doctors and everything else without relief. Nothing did him any good. He grew worse and worse each year. It seemed there was no hope for him. After despair of ever securing any real help from doctors, I determined to work out a treatment myself, as I am a Bachelor. After months of trial and error, and the aid of a few known medical authorities on Eczema and Skin Diseases, and finally compounded in my own laboratory the OVELMO TREATMENT. It is designed to remove the cause of the disease, by working on the system internally, while the itching, smarting, burning and unsightly appearance are relieved by a soothing, healing cream applied to the affected parts.

### Completely Cured

OVELMO worked like magic. My father and I hardly dared to believe our eyes. The itching ceased—no longer formed—the scabs were replaced by new, clean, smooth, healthy skin—his general health improved—he could sleep well at night, and in a short time was completely cured. His case was well known, and his cure was so remarkable that the news spread all over the surrounding country. A little boy, whose flesh about the ankles had sloughed away almost to the bone, was next entirely cured by OVELMO, and the demand for it became so great around my home town that I was urged on all sides to place it before the general public. It is just as good for cuts, burns, bruises and chilblains as it is for Eczema and Skin Diseases.

### 1000 Treatments Free

I want to prove to every interested person, free of charge, what OVELMO will do in all cases of Skin Disease. I want to introduce it everywhere, and am going to give away two Test Treatments Absolutely Free of Cost and Postage Paid to those needing treatment who write me for it promptly.

You can stop scratching—you need not be afraid to be seen in public—you can sleep well at night. The matted scabs—the greenish crusts—the scaly, bleeding, itching skin can be removed, healed, made clean and smooth again. Just write a postal, or a letter stating the Skin Disease for which you want the treatment and the age of the sufferer and I will send you a free and postage paid. I will send you a free and postage paid. I will send you a free and postage paid.

## WANT OPTION

OKLAHOMA LOCAL OPTION LEADERS BEGIN FIGHT AGAINST AN UNJUST LAW.

Business Men's Leagues Are Organizing to Foster Wet Sentiment.

Oklahoma City, Okla.—The Oklahoma Local Option association has established headquarters at Oklahoma City. The association will be opposed by the Oklahoma Anti-Saloon league, which maintains permanent headquarters in Oklahoma City. Mr. Frank Stearns, Shawnee, Okla., is president of the Local Option association. He was formerly mayor of Shawnee, where he is now engaged in business.

The Local Option association will organize the business men's leagues for the purpose of fostering the "wet" sentiment in each of the counties of the state. The association is opposed to county option, and intends to conduct the fight for the freedom of every city from "dry" domination on a local option basis. Each town wants to settle the matter for itself. The western half of the state of old Oklahoma territory is a prohibition stronghold. Eastern Oklahoma and the large towns of Western Oklahoma will give their solid strength to the "wets." In both previous elections, the "drys" won by substantial majorities. Because of the lack of enforcement of the prohibitory laws, the sentiment is said to have swung to the side of the open saloon, licensed and regulated.

## "DRY" GEORGIA SOLONS GET "WET" RECEPTION

Macon, Ga.—Nearly three hundred members of the general assembly of Georgia recently visited Macon as the city's guests to inspect sites offered for the state capitol building, should it be decided to move it from Atlanta to Macon.

Although Georgia is "dry," the Macon Capitol association furnished the solons with 5,000 bottles of beer, 100 gallons of Burgundy punch, 100 gallons of buttermilk, 100 gallons of lemonade, 1,000 pounds of barbecued meats and other Georgia delicacies.

The 5,000 bottles of beer disappeared first from the refreshments, although nearly all the legislators are avowed prohibitionists. Seven candidates for governor were present.

## PROHIBITIONISTS TRY TO MAKE CAMPAIGN THUNDER BY FAKE INVESTIGATION.

Austin, Texas.—Investigations into alleged frauds in the recent election for state-wide prohibition has degenerated into an effort to manufacture campaign thunder for the prohibitionists. At a recent prohibition conference in Fort Worth resolutions were adopted to devote a large portion of the special session of the legislature, and a considerable amount of the state's money, to manufacture sentiment against Gov. Colquitt, who stumped the state against prohibition in the recent election.

Texas papers are fighting the action of the prohibitionists in the legislature, claiming that their action is the rule of the majority over the minority, and that in the fight the public is footing the bill. The prohibitionists in the Texas legislature are charged with frittering away the state's money when the state treasury is depleted.

## OKLAHOMA WETS INSIST ON SPECIAL LEGISLATIVE SESSION.

Oklahoma City, Okla.—Inquiries sent to members of the legislature recently by Gov. Lee Cruce have strengthened the belief that a special session of the legislature will be held during the fall and winter to redistrict the state and to decide on the re-submission of the liquor question. The governor recently asked the legislature for authority to remove a county officer who refused or failed to enforce the prohibition laws. This the legislature declined to do, and the state now has but one enforcement officer with no appropriation upon which to work. Frequent violations of the liquor laws have disgusted the people of Oklahoma with prohibition, and a re-submission of the liquor question is expected to result in an overwhelming demand for the repeal of the law.

## STATE LIQUOR DEALERS START ACTIVE FIGHT AGAINST LIQUOR DIVES.

Milwaukee, Wis.—The Wisconsin State Liquor Dealers' Protective association has begun its fight to purge the saloons of Wisconsin of their evils, and to put the saloon business on a legitimate basis.

Mr. John Koerner, vice president of the association, gave out this statement following the convention of the state association in Ashland, Wis., recently:

"In the first place we want saloonkeepers put out of business who are unable to even read the license. We want every saloonkeeper to be able to understand and respect a license; not to consider it as a liberty. It is our intention of going into court and obtaining the names of saloonkeepers who sold the last drink in drunk and disorderly cases. For the first offense, the saloonkeeper will be warned, and if he allows it to happen again efforts will be made to have his license revoked."

## Dr. Hartman Answers Questions About The Revised Pe-ru-na

S. B. HARTMAN, M. D.

In response to a great many queries I wish to make public statement concerning the sale of Pe-ru-na.

No, we are not selling as much Pe-ru-na as we used to. The reason for this is the change in the formula of Pe-ru-na.

The patent medicine business is very peculiar and particular. A person who has been in the habit of taking patent medicine will notice very quickly the slightest alteration in color, taste or effect. It does not look as it used to, or smell as it used to, or have exactly the same taste as it used to. It does not feel exactly the same in the stomach as before. The medicine will be promptly returned to the drug store and a new bottle demanded.

All this I knew before I changed the formula of Pe-ru-na, which I did six

years ago, but did not realize the difficulty of overcoming the people's notions on this subject. I made a change in the formula of Pe-ru-na. Quite a radical change. A change that altered the color and the taste and somewhat the medicinal effect of Pe-ru-na. I did this believing it was the best thing to do under the circumstances.

Immediately the change appeared, the people began to complain of Pe-ru-na. They generally thought the druggist was to blame, that their bottle of Pe-ru-na had been tampered with. This made bad feelings between the users of Pe-ru-na and the druggists. The druggists in some cases became irritated and angered and made complaint to the wholesalers and manufacturers. Thus the trade was temporarily in an uproar.

After a year of explanation the trade quieted down and the new Pe-ru-na took its place in the drug stores as a popular household remedy. And yet it has not attained the popularity that the other Pe-ru-na had. Changing the formula of Pe-ru-na was equivalent to introducing a new medicine into the drug trade, an extremely difficult thing to do now-a-days.

Pe-ru-na as it is made today is a very excellent remedy for catarrh and general catarrhal ailments. It is for sale in all drug stores and has a slight laxative effect, very much needed in these days. It seemed to me that it was in many ways a better remedy than before. Yet in spite of all explanations there is a considerable demand for the old Pe-ru-na as it used to be made.

I have authorized the formation of a company to manufacture it, under the trade name of Ka-tar-no. The Ka-tar-no Co. is located in Columbus, Ohio, and stands ready to supply the trade with the old-time formula of Pe-ru-na under the name of Ka-tar-no.

## TEXAS NEEDS GREAT MEN

### X. EDUCATION.

THE Chinese made the first paper and the Germans made the first type and brought education within the reach of every citizen on the globe. These achievements, together with the printing press, were the crowning glory of civilization. The Texas press is a great industrial educator. To read our newspapers makes the farmer want to start another plow, the miner shoulder his pick, the manufacturer enlarge his plant and the banker increase his investments. Our marvelous progress is due largely to our inspired writers who sweetly sing the praises of Texas.

THE FIRST PRINTING PRESS.

The vigor of youth is upon Texas. The dew of prosperity falls upon it by night and the rays of a glorious sun nurture it by day. Our soil—warm from creation—is as fertile as the Valley of the Nile. Our land—the factory site of the Universe—invites the merry hum of industry and our minerals—nature's treasury box—await the prospector's pick. Texas opportunities light the universe like the blaze of a mighty fire, inviting whosoever will to come to a land as beautiful as the shores of Paradise and as full of possibilities as the Garden of Eden. Let everybody come. Texas needs great men.

### A Log On The Track

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality, loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing the indigestion. Michael Hessemer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at W. H. Windrow's.

That the course of love doesn't run smooth is demonstrated by the fact that it's a rocky road to Reno.

### Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by W. H. Windrow.

## WOMEN

Women of the highest type, women of superior education and refinement, whose discernment and judgment give weight and force to their opinions, highly praise the wonderful corrective and curative properties of Chamberlain's Stomach and Liver Tablets. Throughout the many stages of woman's life, from girlhood, through the ordeals of motherhood to the declining years, there is no safer or more reliable medicine. Chamberlain's Tablets are sold everywhere at 25c a box.

## Foley Kidney Pills

TONIC IN ACTION - QUICK IN RESULTS Give prompt relief from BACKACHE, KIDNEY and BLADDER TROUBLE, RHEUMATISM, CONGESTION of the KIDNEYS, INFLAMMATION of the BLADDER and all annoying URINARY IRREGULARITIES. A positive boon to MIDDLE AGED and ELDERLY PEOPLE and for WOMEN.

HAVE HIGHEST RECOMMENDATION E. A. Davis, 627 Washington St., Concordville, Ind., is in his 64th year. He writes: "I have lately suffered much from my kidneys and bladder. I had severe backaches and my kidney acting was too frequent, causing me to lose much sleep at night, and in my bladder there was constant pain. I took Foley Kidney Pills for some time and am now free of all trouble and again able to be up and around. Foley Kidney Pills have my highest recommendation."

### "A Perfect Saw."

"To say nothing and saw wood," seems to me one of the most sagacious phrases passed down by our hard working forebears. Like most sayings which have emanated from manual labor, this is blunt, homely, and, to the loquaciously inclined, painfully accurate. Show me a man bent back knife-fashion over a saw-horse, with a short log under his back, and I will point out a man who is minding his own business with admirable zeal. If he must speak, he ceases to saw. While he saws he is necessarily mute. Hence this shrewd phrase, which is putting aside, a perfect saw—A. and tie.

### Good Prison Fare.

If what is said of French prisons be correct the wonder is that there are any people left outside. An official return of the necessities and luxuries supplied recently to the prison department shows that there is no stint. Among the edibles supplied are 84,000 tablets of chocolate, 17,000 kilograms of butter, 3,000 kilograms of coffee, 85,000 eggs, new laid, of course; 50,000 kilograms of Bologna sausage, 2,000 cheeses, 200 kilograms of caramels, and ten times that weight of other sweets. A kilogramme is nearly 2½ pounds.

### Saves Leg Of Boy.

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone, N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c at W. H. Windrow's.

It is small consolation to the ball player to realize that the members of the militia are also called out on strikes.

W. A. Rimes, Ruston, La., writes: "Sometime ago I took Foley Kidney Pills, and must confess the results have been marvelous, for I feel like a new man. I suffered from kidney and bladder troubles, but Foley Kidney Pills fixed me. I will recommend them to all sufferers from kidney trouble. W. H. Windrow.

Strangely enough it's when a fellow can see his finish that he has the most difficulty in keeping his end up.

It is folly to suppose that all things come to those who wait for something to turn up.

J. C. Ray, Winfield, Ala., says: "My father T. J. Ray suffered with kidney and bladder trouble so bad he had to use a catheter. Various kidney remedies were tried without results, and finally we gave him Foley Kidney Pills. In three days he could pass some water and on the fifth, no longer needed a catheter. He continued to use Foley Kidney Pills until entirely cured." W. H. Windrow.

Next to getting the man she wants, a girl enjoys getting the man some other girl wants.

H. M. Beatty, Little Rock, Ark., says: "For the past two years I suffered with kidney trouble, had severe pains across my back and over my hips that almost meant death to me at times. I used several well known remedies, but got no relief until I used Foley Kidney Pills. These I can truthfully say made me a sound and well man." W. H. Windrow.

The main trouble with the fellow who knows it all is that he has so much to learn.

Arbitration is always satisfactory—to the arbitrator.

## NEWS for the YOUNG PEOPLE

### USEFULNESS OF BOX KITES

Scientific Instruments Have Been Carried Into Air for Study of the Atmosphere.

In reply to a query for instructions as to how to make a box kite the following instructions are given:

The examples of this style of kite shown in the accompanying illustration seem to be of simple construction. The brief directions given, with the study of the drawings, may perhaps be sufficient aid to the enquirer in building such a kite.

These cellular or box-kites have square or oblong cells, the frame-work of which are made of light wooden rods and are then covered with cotton except the ends, which are left open. The two cells or cases are fastened at a little distance from each other by four or more sticks.

These kites have been made use of to send an instrument into the higher

air in order to obtain information as to pressure, temperature, humidity, and the force of the wind.

Some box-kites stand nine feet high, have seventy square feet of lifting surface and weigh only eleven pounds. The kites are flown singly or in tandem. Steel piano wire is used instead of cord, and as much as 32,000 feet is coiled around a drum driven by steam power. By this means kites have raised scientific instruments for the study of the atmosphere to a height of over three miles above the earth's surface.

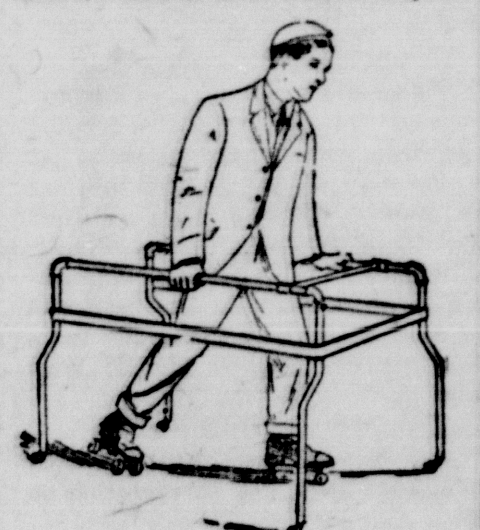

The great practical importance of using kites in this way lies in the information they give of coming weather changes which are first felt in the upper air.

The box kite was invented by Laurence Hargrave of Sydney, N. S. W.

### BEGINNER ON ROLLER SKATES

Amusing, as Well as Useful Device for Novice, is Made of Three-Quarter Inch Pipe.

One of the most amusing as well as useful devices for a beginner on roller skates is shown in the sketch. The device, which is described in Popular

Novice on Roller Skates.

Mechanics, is made of three-quarter-inch pipe and pipe fittings, with a strip of sheet metal one inch wide fastened about half way down on the legs. On the bottom of each leg is fastened an ordinary furniture caster which allows the machine to roll easily on the floor. The rear is left open to allow the beginner to enter, then by grasping the top rail he is able to move about on the floor at ease, without fear of falling.

### Wait for Mud to Dry.

Father Graham, as everybody in the village called him, was one of the old-fashioned gentlemen of whom there are so few left now. He was beloved by every one, and his influence in the little town was great, so good and so active was he.

A young man of the village had been badly insulted, and came to Father Graham full of angry indignation, declaring that he was going at once to demand an apology.

"My dear boy," Father Graham said, "take a word of advice from an old man who loves peace. An insult is like mud; it will brush off much better when it is dry. Wait a little till he and you are both cool, and the thing is easily mended. If you go now, it will only be to quarrel."

It is pleasant to be able to add that the young man took his advice, and before the next day was done, the insulting person came to beg forgiveness.
